

Program Description

Why You Should Participate:

The National AGC Safety Awards (NASA) program has been an ongoing effort to offer AGC members an opportunity to evaluate their safety record. Participating contractors receive a confidential printout to compare their company's safety statistics with similar size and type AGC contractor members both locally and nationally. NASA provides a great opportunity for contractor members with excellent safety records to compete for nationally recognized awards. Additionally, this information can be used to assist in determining if additional accident prevention and loss control measures are necessary.

Who Can Participate:

AGC contractors **with direct-hire, job-site craft labor** are eligible to compete in one or more of the following categories:

- Building
- Highway
- Associate/Specialty
- Heavy
- Municipal/Utilities

How the Program Works:

This program is similar to the Bureau of Labor Statistics and Occupational Safety and Health Administration (BLS-OSHA) recordkeeping systems.

The National AGC Safety Awards data is tabulated to produce total lost workday case incident rates (excluding restricted workdays). The formula for computing "incident" is structured to multiply the incident cases involving days away from work (N) times 200,000. The resulting product is then divided by the work hours of exposure (WH). The formula is the days away case incident rate.

The formula is expressed as follows:

$$\text{Days Away, Case Incident Rate} = \frac{\mathbf{N \times 200,000}}{\mathbf{WH}}$$

(WH) is the number of work hours for the calendar year 2006 (including office hours). N is the number of days-away-from-work cases, which represents the number of cases resulting in days away from work, but does not include job transfer or restricted activity. N is obtained from the total amount of entries recorded in the Number of Cases section (H) of the OSHA form 300A.

Program Description Continued

The completed OSHA 300A Summary of Work-Related Injuries and Illnesses provide the information needed for contractor participation in the National AGC Safety Awards (NASA) Program. Days away from work cases is found in section (H), fatality information can be obtained from the number of cases section (G) and the work hours can be found in the establishment information section.

What a Chapter Must Do to Participate:

Collect the completed NASA participant forms and complete the electronic form by January 31, 2007. Submit the electronic application to crandolj@agc.org by no later than **February 5, 2007**. Electronic Applications received after the February 5th deadline will be submitted for future awards, but will be ineligible for a 2006 award.

What a Contractor Must Do to Participate:

AGC's contractor members receive a National AGC Safety Awards (NASA) form or application from their home AGC Chapter. Transfer the appropriate information from the OSHA form 300A, including the work hour data to the National AGC Safety Awards participant form or application and provide it to your local chapter by **January 31, 2007**.

Award Distribution:

AGC of America will send all Chapter and Member awards to the home chapter for later distribution of awards at chapter events.
