

2024 PENNDOT LETTINGS

WESTERN VS. EASTERN PENNSYLVANIA

CAWP compiled these statistics from data using the PennDOT ECMS system.

WESTERN PA DISTRICTS

1

2023: \$212M / 8%
2024: \$156M / 6%

2

2023: \$73M / 3%
2024: \$399M / 15%

9

2023: \$118M / 5%
2024: \$145M / 6%

10

2023: \$122M / 5%
2024: \$172M / 7%

11

2023: \$152M / 6%
2024: \$376M / 15%

12

2023: \$161M / 6%
2024: \$141M / 5%

Last year, CAWP noted the significant imbalance in PennDOT lettings, with eastern Pennsylvania receiving a much greater share of funding compared to the west: eastern PA having received \$1.7B or 67% versus western PA's portion of \$883M or 33%. Recognizing that both regions have pressing infrastructure needs, CAWP has been advocating for a more equitable distribution of funds across the Commonwealth. This year, as you will see from the following chart, PennDOT's lettings have been more balanced between east and west.
